

Ila Singh, MD, PhD
Chief of Laboratory Medicine
Chief of Pathology Informatics
Professor of Pathology & Immunology
Panel Discussion: AI in Healthcare: Training Programs & Needs

Ila Singh, M.D, Ph.D. serves as Chief of Laboratory Medicine and also as Chief of Pathology Informatics at Texas Children’s Hospital, and as Professor of Pathology & Immunology at Baylor College of Medicine. She is the founding director of the Clinical Informatics fellowship program at Baylor College of Medicine. She has special expertise in Laboratory Test Utilization Stewardship. Her current research is focused on using Machine Learning approaches to determine risk stratification, prescriptive analytics, better utilization of healthcare resources, and optimization of treatment protocols. She is the founder of TRUU-Lab, a national initiative to change the names of clinical lab tests to those that are more standardized and easily understood by clinicians.

Ila completed her M.D. at the University of Bombay, and her Ph.D. at Yale University. She served as a Jane Coffin Childs Fellow at Stanford University and completed her Clinical Pathology residency training at Columbia University Medical Center in New York City. Ila is dual board-certified in Clinical Pathology and in Clinical Informatics.
